14	Road-POE Ops.	Multiple	<p><b>RFID Travel Document Targeted Distribution Pilot</b>                      Following on IMTC agencies' RFID Business Case and the U.S. and Canada's adopted RFID objectives in the 2015 <i>Beyond the Border Forward Plan</i>, this project entails a publically funded distribution of currently approved RF cross-border travel documents (e.g. passport companion card) to approximately 40,000 identifiable, frequent cross-border travelers who possess valid passports. Because 85% percent of Cascade Gateway regional cross-border travelers are Canadian citizens, and implementation of this project requires federal approvals, the leading commitment would need to be from the <i>Canadian</i> federal government. The overall strategy however provides ample opportunity for partner government agencies to simultaneously join and fund their portion of a coordinated issuance of non-NEXUS RF documents to similarly identified frequent travelers (U.S. CBP &amp; Dept. of State, WA Dept. of Licensing, ICBC).</p>	IRCC? (with CBSA, CBP, US State, WA DOL, ICBC)	<p>* BtB Forward Plan RFID objective March 2015.                      * IMTC Business Case: Oct. 2015.                      * Added to TBWG Action Plan 2016 for continued discussion.</p>	Unfunded	\$1,300,000	TBD	Operations
